in this franklin classic storybook franklin can't decide what to donate to his school's christmas toy drive at first all of his toys seem too special to give away then nothing seems special enough with some inspiration from his great aunt harriet franklin finally comes up with the perfect gift

in this franklin classic storybook franklin's first school project is to create a picture of what he likes best about his neighborhood franklin can't decide what to draw beaver chooses the library and moose decides on the pond franklin likes those places too but what about the fire station or the park after considering all the many choices franklin finally decides that it's the people rather than the places that make his neighborhood so special

franklin learns to deal with the sadness of a friend moving away and how to keep in touch in this franklin classic storybook

explore the hidden niches of american history to discover the tug between our yearning for privacy and our insatiable curiosity book jacket

vols 1-69 include more or less complete patent reports of the u.s. patent office for years 1825-59

this volume attempts to throw fresh light on two areas of benjamin franklin's intellectual world namely his self-fashioning and his political thought it is an odd thing that for all of franklin's voluminous writings a fantastically well-documented correspondence over many years scientific treatises that made his name amongst the brightest minds of europe newspaper articles satires and of course his signature on the declaration of independence and the u.s. constitution and yet scholars debate how to get at his political thought indeed if he had any political philosophy at all it

could be argued that he is perhaps the American founder most closely associated with the enlightenment similarly for a man who left so much evidence about his life as a printer bookseller postmaster inventor diplomat politician scientist among other professions one who wrote an autobiography that has become a piece of American national literature and indeed a contribution to world culture the question of who Ben Franklin continues to engage scholars and those who read about his life his identity seems so stable that we associate it with certain virtues that apply to the way we live our lives time management for example the image of the stable figure of Franklin is applied to create a sense of trust in everything from financial institutions to plumbers his constant drive to improve and fashion himself reveal however a man whose identity was not static and fixed but was focused on growth on bettering his understanding of himself and the world he lived in and attempted to influence and improve
