the first book to take a visitor's eye view of the museum visit when it was first published in 1992 the museum experience revolutionized the way museum professionals understand their constituents falk and dierking have updated this essential

reference incorporating advances in research theory and practice in the museum field over the last twenty years written in clear non technical style the museum experience revisited paints a thorough picture of why people go to museums what they do there how they learn and what museum practitioners can do to enhance these experiences

religious experience revisited explores a dilemma which has haunted the study of religion since william james is religion rooted in experiences is religion rooted in expressions how are experiences and expressions related the contributors to this international and interdisciplinary compilation explore the possibilities and the impossibilities of a hermeneutics of religion combining theology and philosophy with biblical cultural historical and literary studies they examine how religious experiences and religious expressions have been entangled in the past and in the present these entanglements call for interdisciplinary conversations in which those who study experiences and those who study expressions can learn from each other in order to carve out important and instructive spaces for the study of religion

the first book to take a visitor s eye view of the museum visit when it was first published in 1992 the museum experience revolutionized the way museum professionals understand their constituents falk and dierking have updated this essential reference incorporating advances in research theory and practice in the museum field over the last twenty years written in clear non technical style the museum experience revisited paints a thorough picture of why people go to museums what they do there how they learn and what museum practitioners can do to enhance these experiences

annotation ann taves addresses the subject of religious experience directly and the problems of reductionism and humanistic fears of the sciences indirectly and by example the orientation of this book is practical more than philosophical

previous editions of this book established themselves as authoritative overviews of action learning practice around the globe given the increase in action learning activity since this book last appeared the demand for an up to date edition has grown whilst chapters on action learning are now obligatory in every collection on leadership and management development there is

still no competing specialist work of this nature
